Unit 4 Word Wall & Study Cards

Cut on the dashed lines. Use for a word wall, partner quizzing or a ring of study cards. Every card has a picture to explain.

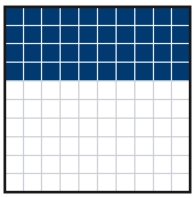

LESSON 4-1

percent

por ciento

Out of 100, or per hundred.

Example 40% = 40 out of 100

Say it: *Explain the picture to a partner.*

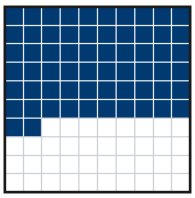

LESSON 4-1

decimal grid

cuadrícula decimal

A grid of 100 squares. Each square is 1%.

Example 62 shaded = 62%

Say it: *Explain the picture to a partner.*

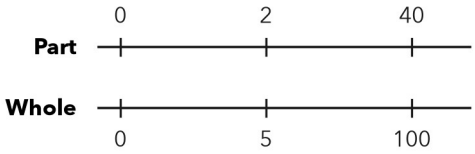

LESSON 4-1

equivalent ratio

razón equivalente

Shows the same comparison with different numbers.

Example 2 : 5 = 40 : 100

Say it: *Explain the picture to a partner.*

LESSON 4-1

the whole

el entero

The amount that counts as 100%.

Example last year's total = 100%

Say it: *Explain the picture to a partner.*

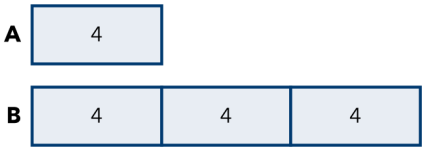

LESSON 4-1

times as much

veces tanto como

Tells how many wholes an amount makes.

Example 3 times as much = 300%

Say it: *Explain the picture to a partner.*

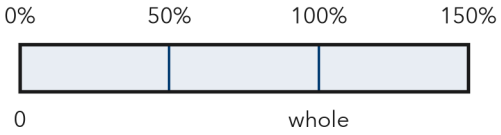

LESSON 4-1

greater than 100%

mayor que 100%

More than the whole.

Example 150% = 1.5 wholes

Say it: *Explain the picture to a partner.*

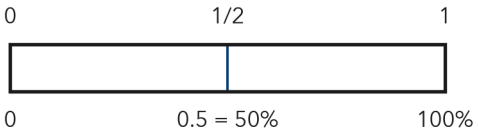

LESSON 4-2

equivalent

equivalente

Names the same amount in a different way.

Example 3/4 = 0.75 = 75%

Say it: *Explain the picture to a partner.*

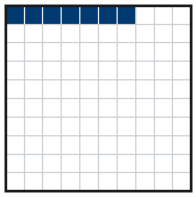

LESSON 4-2

hundredths

centésimas

Parts out of 100; the second place after the point.

Example 0.09 = 9 hundredths = 9%

Say it: *Explain the picture to a partner.*

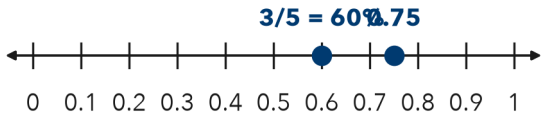

LESSON 4-2

common form

forma común

Every value written the same way before you compare.

Example 0.7, 3/5, 65% as 70%, 60%, 65%

Say it: *Explain the picture to a partner.*

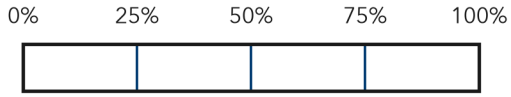

LESSON 4-2

benchmark

punto de referencia

An easy number you know well, used to compare other numbers.

Example 1/2 = 50%

Say it: *Explain the picture to a partner.*

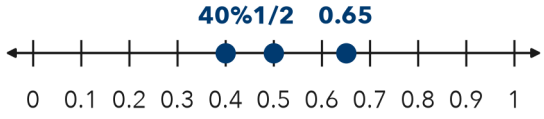

LESSON 4-2

order

orden

To list numbers from least to greatest, or greatest to least.

Example 0.2, 35%, 1/2

Say it: *Explain the picture to a partner.*

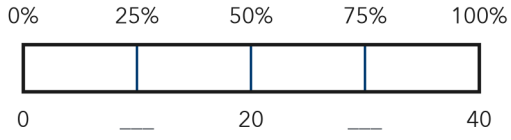

LESSON 4-3

estimate

estimar

A close answer that is not exact.

Example about 50% done

Say it: *Explain the picture to a partner.*

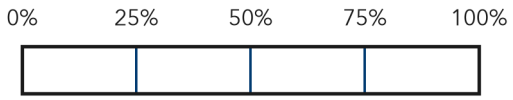

LESSON 4-3

benchmark percent

porcentaje de referencia

An easy percent to use, like 10%, 25%, 50%, or 75%.

Example 50% = one half

Say it: *Explain the picture to a partner.*

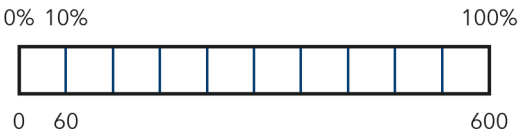

LESSON 4-3

compatible (friendly) numbers

números compatibles

Numbers that are easy to compute with in your head.

Example 19% of 312 ≈ 20% of 300

Say it: *Explain the picture to a partner.*

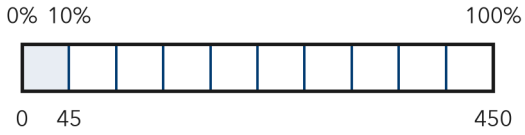

LESSON 4-3

ten percent

diez por ciento

One tenth of the whole: divide by 10.

Example 10% of 300 = 30

Say it: *Explain the picture to a partner.*

LESSON 4-4

part

parte

The piece of the whole that the percent tells about.

Example 25% of 80 is 20

Say it: *Explain the picture to a partner.*

LESSON 4-4

whole

el entero

The full amount. It comes right after the word "of."

Example in 45% of 140, the whole is 140

Say it: *Explain the picture to a partner.*

LESSON 4-4

equation

ecuación

A math sentence with an equal sign.

Example part = 0.45 × 140

Say it: *Explain the picture to a partner.*

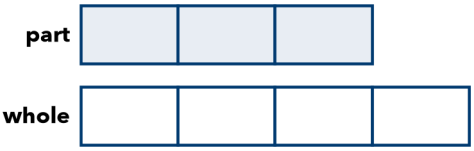

LESSON 4-4

part-to-whole ratio

razón de parte al entero

Compares part of a group to the whole group.

Example 18 out of 24 shots

Say it: *Explain the picture to a partner.*

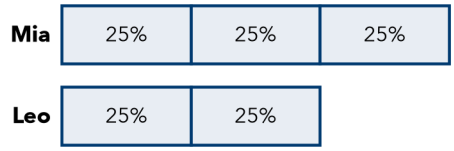

LESSON 4-4

common whole

entero común

The same total, like 100, used for every group.

Example 75/100 and 80/100

Say it: *Explain the picture to a partner.*

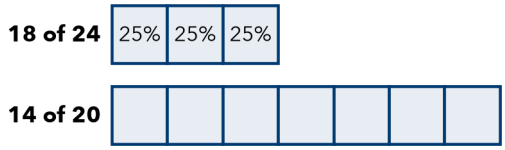

LESSON 4-4

compare

comparar

To decide which amount is greater or less.

Example 80% > 75%

Say it: *Explain the picture to a partner.*

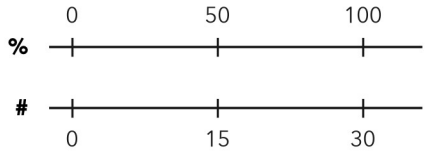

LESSON 4-5

double number line

doble recta numérica

Two lines that match amounts with percents.

Example $6 at 10%, $60 at 100%

Say it: *Explain the picture to a partner.*

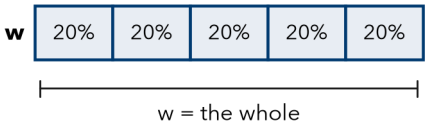

LESSON 4-5

variable

variable

A letter that stands for an unknown number.

Example w = the whole

Say it: *Explain the picture to a partner.*

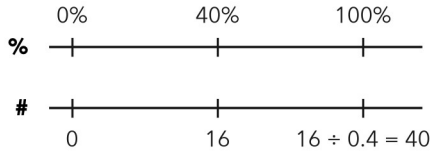

LESSON 4-5

inverse operation

operación inversa

An operation that undoes another. Division undoes multiplication.

Example $w = 138 \div 0.6$

Say it: *Explain the picture to a partner.*

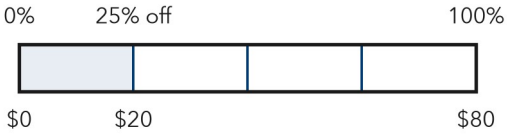

LESSON 4-4

discount

descuento

The amount taken off a price.

Example 25% off $80 = $20 off; you pay $60

Say it: *Explain the picture to a partner.*

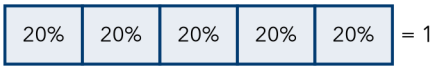

LESSON 4-1

tape diagram

diagrama de cinta

A bar split into equal parts to show a whole and its parts.

Example 5 equal parts: each part is 20%

Say it: *Explain the picture to a partner.*

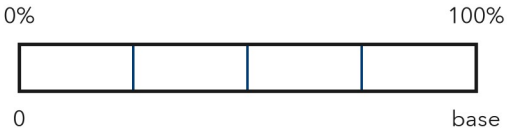

LESSON 4-4

base

base

The whole you find the percent of. It is 100%.

Example In 20% of 50, the base is 50

Say it: *Explain the picture to a partner.*
