GRADE 6 MATHEMATICS · REVEAL MATH

Unit 5

Area, Volume and Surface Area

Teacher Guide · Contents · Lesson Map

Lesson 5-1 Area of Parallelograms · Area of Rhombuses

Lesson 5-2 Area of Triangles · Missing Measures in Triangles

Lesson 5-3 Trapezoids by Decomposing · The Trapezoid Area Formula

Lesson 5-4 Area of Regular Polygons · Composite Figures

Lesson 5-5 Volume of Rectangular Prisms · Missing Fractional Edges

Lesson 5-6 Drawing Nets of Solids · Reading Nets and Solids

Lesson 5-7 Surface Area of Rectangular Prisms · Surface Area of Triangular Prisms

Lesson 5-8 Surface Area of Pyramids · Lateral Area of Pyramids

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	Core notes plus model/reasoning pages for both sessions. Select the current session pages in Print Packets.
Practice	Form A (class) and Form B (reteach / retake) per session. 11 numbered problems with subparts. Use the lesson route to select the core set; see the current PDF for page count.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Core: 1 page per session. Supported: 2 pages per session; print duplex as 2 sheets. Same problems and answers, with language supports.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Use the lesson Teaching Support Guide to match errors to feedback, revision and a fresh check. Confidence ratings inform support; they do not replace work evidence.

Lesson map

Lesson	Session	Standard	Learning target
5-1	1 · Area of Parallelograms	6.G.A.1	I can find the area of a parallelogram by multiplying the base by the perpendicular height.
5-1	2 · Area of Rhombuses	6.G.A.1	I can find the area of a rhombus using the base and height or the two diagonals.
5-2	1 · Area of Triangles	6.G.A.1	I can find the area of a triangle using one half the base times the height.
5-2	2 · Missing Measures in Triangles	6.G.A.1	I can find a missing base or height of a triangle when I know its area.
5-3	1 · Trapezoids by Decomposing	6.G.A.1	I can find the area of a trapezoid by decomposing it into a rectangle and triangles.
5-3	2 · The Trapezoid Area Formula	6.G.A.1	I can find the area of a trapezoid using the trapezoid area formula.
5-4	1 · Area of Regular Polygons	6.G.A.1	I can find the area of a regular polygon by finding the area of one triangle and multiplying.
5-4	2 · Composite Figures	6.G.A.1	I can find the area of a composite figure by adding or subtracting the areas of simpler shapes.
5-5	1 · Volume of Rectangular Prisms	6.G.A.2	I can find the volume of a rectangular prism by multiplying length, width, and height.
5-5	2 · Missing Fractional Edges	6.G.A.2	I can find a missing edge of a prism and find volumes with fractional edge lengths.
5-6	1 · Drawing Nets of Solids	6.G.A.4	I can draw the net of a solid by unfolding its faces onto a flat surface.
5-6	2 · Reading Nets and Solids	6.G.A.4	I can name the solid a net makes by reading the shapes in the net.
5-7	1 · Surface Area of Rectangular Prisms	6.G.A.4	I can find the surface area of a rectangular prism by adding the areas of its six faces.
5-7	2 · Surface Area of Triangular Prisms	6.G.A.4	I can find the surface area of a triangular prism using its net.
5-8	1 · Surface Area of Pyramids	6.G.A.4	I can find the surface area of a pyramid by adding the base area and the areas of its triangular faces.
5-8	2 · Lateral Area of Pyramids	6.G.A.4	I can find the lateral area of a pyramid, which covers only its slanted faces.

Teaching, assessment, and retrieval route

Use the current lesson Teaching Support Guide for copy counts, planned 45-minute route, item-specific feedback, and a reserved recheck. Student notes now include full-size conceptual task pages; select them deliberately rather than assigning every page in one session.

Resource	Use	Key/response
Readiness Check	Before the unit; identify access to upcoming skills.	Matching Teacher Key; plan prerequisites without labeling students.
Midunit Check	After the first half of the unit.	Review the item scope before assigning; use the matching key.
End Form A	After all relevant targets have been taught.	Separate Teacher Key; item criteria and partial credit.
End Form B	After revision, only if unseen.	Parallel Teacher Key; independent evidence.
Synthesis Task	Connect several taught representations and decisions.	Worked anchor and an 8-point analytic rubric.

Readiness and midunit checks are short teacher-authored samples, not exhaustive tests. The end forms also sample the unit; use lesson exit evidence for targets not sampled. Preserve the existing Unit 3 Version B test as a separate publisher-aligned retained assessment.

Retrieval and intervention

5.1: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.2: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.3: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.4: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.5: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.6: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.7: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

5.8: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.
