Unit 5 Vocabulary Retrieval Guide

Use the existing bilingual vocabulary cards with their diagrams. Study-card use: retrieve the meaning without looking, draw an example and nonexample, then explain which feature distinguishes them. Word-wall use needs a larger display size; do not claim the study-card print is readable across a room.

Lesson 5.1

Retrieve: parallelogram, base, height, perpendicular, rhombus, diagonal, congruent.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.2

Retrieve: right triangle, height, congruent, area, formula, inverse operation.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.3

Retrieve: trapezoid, decompose, height, base, formula, right trapezoid.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.4

Retrieve: regular polygon, apothem, congruent, composite figure, add, subtract.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.5

Retrieve: volume, rectangular prism, cubic units, edge, fraction.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.6

Retrieve: net, face, pyramid, edge, vertex, base.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.7

Retrieve: surface area, face, congruent, triangular prism, lateral face.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Lesson 5.8

Retrieve: slant height, lateral face, apex, lateral area, surface area.

Explain with the lesson model: The relevant faces or regions are ___ because ___. My labeled dimensions show ___, so the measure is ___.

Spanish terms are vocabulary access supports, not a complete Spanish edition. A proficient bilingual review is still required before claiming independently verified translation quality.
