GRADE 6 MATHEMATICS · REVEAL MATH

Unit 6

Expressions and Operations

Teacher Guide · Contents · Lesson Map

Lesson 6-1	Dividing by a Unit Fraction · Dividing a Fraction by a Whole Number
Lesson 6-2	Dividing a Fraction by a Fraction · Dividing with Mixed Numbers
Lesson 6-3	Writing Repeated Factors as Powers · Finding the Value of a Power
Lesson 6-4	Writing Numerical Expressions · Order of Operations with Powers
Lesson 6-5	Writing Algebraic Expressions · Evaluating Algebraic Expressions
Lesson 6-6	Simplifying to Show Equivalence · Testing and Justifying Equivalence
Lesson 6-7	Factors and Greatest Common Factor · Multiples and Least Common Multiple
Lesson 6-8	Using Properties to Rewrite Expressions · Expanding and Factoring Expressions

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	Core notes plus model/reasoning pages for both sessions. Select the current session pages in Print Packets.
Practice	Form A (class) and Form B (reteach / retake) per session. 11 numbered problems with subparts. Use the lesson route to select the core set; see the current PDF for page count.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Core: 1 page per session. Supported: 2 pages per session; print duplex as 2 sheets. Same problems and answers, with language supports.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Use the lesson Teaching Support Guide to match errors to feedback, revision and a fresh check. Confidence ratings inform support; they do not replace work evidence.

Lesson map

Lesson	Session	Standard	Learning target
6-1	1 · Dividing by a Unit Fraction	6.NS.A.1	I can divide a whole number by a unit fraction and explain what the quotient counts.
6-1	2 · Dividing a Fraction by a Whole Number	6.NS.A.1	I can divide a fraction by a whole number and explain the result.
6-2	1 · Dividing a Fraction by a Fraction	6.NS.A.1	I can divide a fraction by another fraction using the reciprocal.
6-2	2 · Dividing with Mixed Numbers	6.NS.A.1	I can divide mixed numbers by writing them as improper fractions first.
6-3	1 · Writing Repeated Factors as Powers	6.EE.A.1	I can write repeated multiplication as a power and name its base and exponent.
6-3	2 · Finding the Value of a Power	6.EE.A.1	I can find the value of a power by multiplying the base the number of times the exponent shows.
6-4	1 · Writing Numerical Expressions	6.EE.A.2	I can write a numerical expression that matches a situation.
6-4	2 · Order of Operations with Powers	6.EE.A.2c	I can evaluate an expression that contains grouping symbols and powers using the order of operations.
6-5	1 · Writing Algebraic Expressions	6.EE.A.2a	I can write an algebraic expression that uses a variable for an unknown amount.
6-5	2 · Evaluating Algebraic Expressions	6.EE.A.2c	I can evaluate an algebraic expression by substituting a value for the variable.
6-6	1 · Simplifying to Show Equivalence	6.EE.A.3	I can simplify an expression by combining like terms to test whether two expressions are equivalent.
6-6	2 · Testing and Justifying Equivalence	6.EE.A.4	I can test whether two expressions are equivalent by substituting values and by reasoning.
6-7	1 · Factors and Greatest Common Factor	6.NS.B.4	I can list the factors of two numbers and find their greatest common factor.
6-7	2 · Multiples and Least Common Multiple	6.NS.B.4	I can list multiples of two numbers and find their least common multiple.
6-8	1 · Using Properties to Rewrite Expressions	6.EE.A.3	I can use the distributive property and like terms to rewrite an expression in simplest form.
6-8	2 · Expanding and Factoring Expressions	6.EE.A.3	I can expand an expression and factor one using the greatest common factor.

Teaching, assessment, and retrieval route

Use the current lesson Teaching Support Guide for copy counts, planned 45-minute route, item-specific feedback, and a reserved recheck. Student notes now include full-size conceptual task pages; select them deliberately rather than assigning every page in one session.

Resource	Use	Key/response
Readiness Check	Before the unit; identify access to upcoming skills.	Matching Teacher Key; plan prerequisites without labeling students.
Midunit Check	After the first half of the unit.	Review the item scope before assigning; use the matching key.
End Form A	After all relevant targets have been taught.	Separate Teacher Key; item criteria and partial credit.
End Form B	After revision, only if unseen.	Parallel Teacher Key; independent evidence.
Synthesis Task	Connect several taught representations and decisions.	Worked anchor and an 8-point analytic rubric.

Readiness and midunit checks are short teacher-authored samples, not exhaustive tests. The end forms also sample the unit; use lesson exit evidence for targets not sampled. Preserve the existing Unit 3 Version B test as a separate publisher-aligned retained assessment.

Retrieval and intervention

6.1: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.2: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.3: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.4: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.5: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.6: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.7: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

6.8: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.
