Unit 7 Vocabulary Retrieval Guide

Use the existing bilingual vocabulary cards with their diagrams. Study-card use: retrieve the meaning without looking, draw an example and nonexample, then explain which feature distinguishes them. Word-wall use needs a larger display size; do not claim the study-card print is readable across a room.

Lesson 7.1

Retrieve: integer, opposite, negative number, opposite of the opposite.

Explain with the lesson model: The location or direction is ___, but the distance is ___. I know this because ___.

Lesson 7.2

Retrieve: rational number, integer, number line, opposite, opposite of the opposite.

Explain with the lesson model: The location or direction is ___, but the distance is ___. I know this because ___.
