GRADE 6 MATHEMATICS · REVEAL MATH

Unit 8

Equations and Inequalities

Teacher Guide · Contents · Lesson Map

Lesson 8-1 Equations and Solutions · Writing Equations

Lesson 8-2 Addition Equations · Subtraction Equations

Lesson 8-3 Multiplication Equations · Division Equations

Lesson 8-4 Writing Inequalities · Representing Inequalities

Lesson 8-5 Graphing Inequalities · Testing Solutions to Inequalities

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	Core notes plus model/reasoning pages for both sessions. Select the current session pages in Print Packets.
Practice	Form A (class) and Form B (reteach / retake) per session. 11 numbered problems with subparts. Use the lesson route to select the core set; see the current PDF for page count.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Core: 1 page per session. Supported: 2 pages per session; print duplex as 2 sheets. Same problems and answers, with language supports.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Use the lesson Teaching Support Guide to match errors to feedback, revision and a fresh check. Confidence ratings inform support; they do not replace work evidence.

Lesson map

Lesson	Session	Standard	Learning target
8-1	1 · Equations and Solutions	6.EE.B.5	I can check whether a value is a solution of an equation by substituting it.
8-1	2 · Writing Equations	6.EE.B.6	I can write an equation for a situation and test a proposed answer.
8-2	1 · Addition Equations	6.EE.B.7	I can solve an addition equation by subtracting the same amount from both sides.
8-2	2 · Subtraction Equations	6.EE.B.7	I can solve a subtraction equation by adding the same amount to both sides.
8-3	1 · Multiplication Equations	6.EE.B.7	I can solve a multiplication equation by dividing both sides by the same number.
8-3	2 · Division Equations	6.EE.B.7	I can solve a division equation by multiplying both sides by the same number.
8-4	1 · Writing Inequalities	6.EE.B.8	I can write an inequality that describes a constraint in a real situation.
8-4	2 · Representing Inequalities	6.EE.B.8	I can represent an inequality with a set of solutions and describe them.
8-5	1 · Graphing Inequalities	6.EE.B.8	I can graph an inequality on a number line using an open or a closed dot.
8-5	2 · Testing Solutions to Inequalities	6.EE.B.8	I can test values against an inequality and graph the solution set.

Teaching, assessment, and retrieval route

Use the current lesson Teaching Support Guide for copy counts, planned 45-minute route, item-specific feedback, and a reserved recheck. Student notes now include full-size conceptual task pages; select them deliberately rather than assigning every page in one session.

Resource	Use	Key/response
Readiness Check	Before the unit; identify access to upcoming skills.	Matching Teacher Key; plan prerequisites without labeling students.
Midunit Check	After the first half of the unit.	Review the item scope before assigning; use the matching key.
End Form A	After all relevant targets have been taught.	Separate Teacher Key; item criteria and partial credit.
End Form B	After revision, only if unseen.	Parallel Teacher Key; independent evidence.
Synthesis Task	Connect several taught representations and decisions.	Worked anchor and an 8-point analytic rubric.

Readiness and midunit checks are short teacher-authored samples, not exhaustive tests. The end forms also sample the unit; use lesson exit evidence for targets not sampled. Preserve the existing Unit 3 Version B test as a separate publisher-aligned retained assessment.

Retrieval and intervention

8.1: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

8.2: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

8.3: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

8.4: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

8.5: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.
