GRADE 6 MATHEMATICS · REVEAL MATH

Unit 9

Two-variable Relationships

Teacher Guide · Contents · Lesson Map

Lesson 9-1 Independent and Dependent Variables · Tables of Values

Lesson 9-2 From Table to Graph · Analyzing a Graph

Lesson 9-3 Equations from Tables · Equations from Situations

Lesson 9-4 Substitute and Solve · Working Backward to a Goal

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	Core notes plus model/reasoning pages for both sessions. Select the current session pages in Print Packets.
Practice	Form A (class) and Form B (reteach / retake) per session. 11 numbered problems with subparts. Use the lesson route to select the core set; see the current PDF for page count.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Core: 1 page per session. Supported: 2 pages per session; print duplex as 2 sheets. Same problems and answers, with language supports.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Use the lesson Teaching Support Guide to match errors to feedback, revision and a fresh check. Confidence ratings inform support; they do not replace work evidence.

Lesson map

Lesson	Session	Standard	Learning target
9-1	1 · Independent and Dependent Variables	6.EE.C.9	I can name the independent and dependent variables in a relationship.
9-1	2 · Tables of Values	6.EE.C.9	I can build a table of values for a relationship between two variables.
9-2	1 · From Table to Graph	6.EE.C.9	I can turn a table of values into points and plot them on a graph.
9-2	2 · Analyzing a Graph	6.EE.C.9	I can read a relationship off a graph and describe the rate it shows.
9-3	1 · Equations from Tables	6.EE.C.9	I can write an equation that matches a table of values.
9-3	2 · Equations from Situations	6.EE.C.9	I can write an equation from a described situation and identify its variables.
9-4	1 · Substitute and Solve	6.EE.C.9	I can substitute a value into an equation to find the matching output.
9-4	2 · Working Backward to a Goal	6.EE.C.9	I can work backward from a goal to find the input an equation needs.

Teaching, assessment, and retrieval route

Use the current lesson Teaching Support Guide for copy counts, planned 45-minute route, item-specific feedback, and a reserved recheck. Student notes now include full-size conceptual task pages; select them deliberately rather than assigning every page in one session.

Resource	Use	Key/response
Readiness Check	Before the unit; identify access to upcoming skills.	Matching Teacher Key; plan prerequisites without labeling students.
Midunit Check	After the first half of the unit.	Review the item scope before assigning; use the matching key.
End Form A	After all relevant targets have been taught.	Separate Teacher Key; item criteria and partial credit.
End Form B	After revision, only if unseen.	Parallel Teacher Key; independent evidence.
Synthesis Task	Connect several taught representations and decisions.	Worked anchor and an 8-point analytic rubric.

Readiness and midunit checks are short teacher-authored samples, not exhaustive tests. The end forms also sample the unit; use lesson exit evidence for targets not sampled. Preserve the existing Unit 3 Version B test as a separate publisher-aligned retained assessment.

Retrieval and intervention

9.1: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

9.2: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

9.3: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.

9.4: retrieve one independent item after two lessons and about one week; use the lesson guide to target model, arithmetic, or explanation errors.
