Name_____ Date_____ Period_____

LESSON 4-2 · HOMEWORK PACKET · LEVEL 1 · SHEET 1 OF 2

Fractions, Decimals, Percents

Maryland Standard 6.AT.4 · Learning target – I can write the same value as a fraction, a decimal, and a percent.

REMEMBER

- A percent is a fraction out of 100: 45% = 45/100 = 0.45.
- **Fraction to percent:** make the denominator 100.
- **Decimal to percent:** read hundredths. 0.07 = 7%, 0.4 = 40%.

WORKED EXAMPLE

Write 3/20 as a decimal and as a percent.

Step 1 20 × 5 = 100, so 3/20 = 15/100.

Step 2 15 hundredths = 0.15.

Step 3 15/100 = 15%.

Answer **3/20 = 0.15 = 15%**

WORD BANK

percent (por ciento) – out of 100

decimal (decimal) – a number with a decimal point, like 0.35

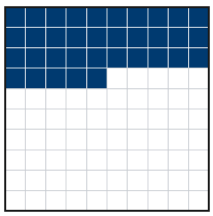

simplest form (forma más simple) – top and bottom cannot be divided by the same number

hundredths (centésimas) – parts out of 100

PRACTICE

show your work · label units

1. Write the shaded part of the grid three ways.

Step 1 Count the shaded squares out of 100.

Step 2 Write that count over 100, then simplify.

Step 3 Read the same hundredths as a decimal and a percent.

a. Fraction (simplest form) _____

b. Decimal _____

c. Percent _____ %

2. Complete the table. Write fractions in simplest form.

Step 1 Fraction to percent: make the bottom 100.

Step 2 Percent to fraction: write it over 100, then simplify.

Fraction	Decimal	Percent
1/4		
	0.7	
		8%
		65%
3/5		

3. Soccer Practice. Amara **scored** on 11 of her 25 shots. Write 11 out of 25 as a fraction, a decimal, and a percent.

Step 1 First write the fraction 11/25.

Step 2 Then multiply the top and bottom by 4 to get a bottom of 100.

Show your work.

Fraction, decimal, percent_____

4. Find the Error. Destiny wrote 3/4 = 0.34 = 34%. Explain her mistake. Write 3/4 correctly.

Frame *Destiny's mistake is ___. 3/4 = ___/100, so 3/4 = ___ = ___%.*

_____

_____

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #____

AT HOME Find a fraction, a decimal, or a percent at home (a recipe, a price tag, a battery icon). Write it the other two ways.

Name_____ Date_____ Period_____

LESSON 4-2 · HOMEWORK PACKET · LEVEL 1 · SHEET 2 OF 2

Compare and Order

Maryland Standard 6.AT.4 · Learning target – I can compare and order values written as fractions, decimals, and percents.

REMEMBER

- Write every value in the **same form** (all percents).
- Hundredths are the bridge: 0.4 = 0.40 = 40%.
- Benchmarks: 1/4 = 25%, 1/2 = 50%, 3/4 = 75%.

WORKED EXAMPLE

Order from least to greatest: 0.3, 7/20, 32%.

Step 1 0.3 = 0.30 = 30%

Step 2 7/20 = 35/100 = 35%

Step 3 Compare: 30% < 32% < 35%

Answer **0.3, 32%, 7/20**

WORD BANK

compare (comparar) – decide which is greater or less

order (ordenar) – put in a line from least to greatest

same form (la misma forma) – all percents, or all decimals

greater than > (mayor que) – bigger

PRACTICE

show your work · label units

1. Write <, >, or = in each blank.

Step 1 Write both values as percents.

Step 2 Then compare the two percents.

a. 0.6 ___ 58%

b. 3/4 ___ 0.8

c. 0.09 ___ 1/10

2. Order each set from least to greatest.

Step 1 Change every value to a percent.

Step 2 Order the percents.

Step 3 Write the original numbers in that order.

a. 0.72, 7/10, 75%

_____

b. 1/4, 0.2, 22% _____

c. 1.3, 125%, 6/5

_____

3. Field Trip Vote. Room A: 0.55 of the students **chose** the aquarium. Room B: 3/5 chose it. Room C: 52% chose it. Order the rooms from least to greatest share.

Frame *Room A = ___%, Room B = ___%, Room C = ___%. Order: Room ___, Room ___, Room ___.*

Step 1 Change 0.55 and 3/5 to percents.

Step 2 Put the three percents in order.

Step 3 Write the rooms in that order.

Show your work.

Order_____

4. Stretch. Write one value that is between 3/5 and 0.7. Write it as a fraction, a decimal, and a percent.

Frame *3/5 = ___% and 0.7 = ___%. I pick ___%. Fraction: ___. Decimal: ___.*

Step 1 Write 3/5 and 0.7 as percents.

Step 2 Pick a percent between them.

Fraction, decimal, percent_____

5. Find the Error. Nico says 3/8 is greater than 0.4 because 8 is greater than 4. Explain his mistake and compare the values correctly.

Frame *Nico is wrong because ___. 3/8 = ___% and 0.4 = ___%, so ___ is greater.*

_____

_____

TEST PRACTICE

choose the best answer

6. Which list is ordered from least to greatest?

Step 1 Write each value as a percent.

Step 2 Find the list that goes from small to big.

A 2/5, 0.35, 38% **B** 0.35, 2/5, 38% **C** 0.35, 38%, 2/5 **D** 38%, 0.35, 2/5

7. Which value is the greatest?

Step 1 Write each value as a percent.

Step 2 Circle the greatest percent.

A 0.62 **B** 3/5 **C** 64% **D** 0.6

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #____

AT HOME Ask someone at home which is more: 3/4 of a pizza or 70% of the same pizza. Show them how you know.
