LESSON 4-4 · HOMEWORK PACKET · LEVEL 1 · SHEET 1 OF 2

Find the Percent of a Number

Maryland Standard 6.AT.4 · Learning target – I can find the percent of a number exactly.

REMEMBER

- The **whole** comes after "of." In 30% of 80, the whole is 80.
- Percent to decimal, then multiply: 0.3 × 80 = 24.
- Or use 10%: 10% of 80 = 8, so 30% = 3 × 8 = 24.

WORKED EXAMPLE

Find 35% of 60.

Step 1 Write 35% as a decimal: 0.35.

Step 2 Multiply: 0.35 × 60 = 21.

Step 3 Check with 10%: 6 + 6 + 6 + 3 = 21.

Answer **21**

WORD BANK

percent (por ciento) – out of 100

whole (el entero) – the full amount; it comes after "of"

part (la parte) – the piece the percent tells about

decimal (el decimal) – 45% = 0.45

PRACTICE

show your work · label units

1. Find each part.

Step 1 Write the percent as a decimal.

Step 2 Multiply the decimal by the number after "of."

a. 20% of 45 = _____ **b.** 75% of 64 = _____ **c.** 6% of 350 = _____

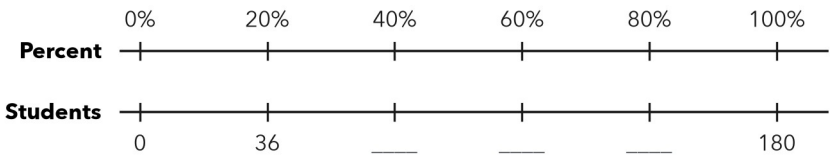

d. 45% of 80 = _____ **e.** 150% of 30 = _____ **f.** 12% of 250 = _____

2. **Lunch from Home.** A grade has 180 students. 40% of them bring lunch from home. Fill in the double number line. Then find how many students bring lunch.

Step 1 180 ÷ 5 = 36, so each jump is 20%.

Step 2 Add 36 each time to fill the line.

Step 3 Find the number under 40%.

Answer_____ students

3. Jacket Sale. A jacket costs $64. It is **25% off**. How much is taken off? What is the new price?

Step 1 Find 25% of $64.

Step 2 Subtract that from $64.

a. Discount: _____

b. Sale price: _____

Show your work.

4. Soccer Team. A soccer team has 40 players. 15% of the players are new this year. How many players are new?

Step 1 Find 10% of 40, then 5% (half of 10%).

Step 2 Add them to get 15%.

Answer_____ players

5. Compare. Which is greater: 30% of 90, or 90% of 30? Show both amounts. Explain what you notice.

Frame *30% of 90 = ___ and 90% of 30 = ___. I notice ___.*

_____

_____

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #____

AT HOME Find a sale sign or a tip suggestion. Work out the exact amount with someone at home.

LESSON 4-4 · HOMEWORK PACKET · LEVEL 1 · SHEET 2 OF 2

Compare Percents

Maryland Standard 6.AT.4 · Learning target – I can compare two records fairly by converting each one to a percent.

REMEMBER

- Compare records fairly: write each as a **percent**.
- Scale to out of 100, or divide part ÷ whole.
- More hits is **not** always a better rate.

WORKED EXAMPLE

Mia made 14 of 20 shots. Leo made 18 of 25. Who has the better rate?

Step 1 Mia: 14/20 = 70/100 = 70%. Leo: 18/25 = 72/100 = 72%.

Step 2 Compare: 72% > 70%.

Answer **Leo has the better rate.**

WORD BANK

record (el resultado) – how many out of how many, like 9 out of 20

percent (por ciento) – out of 100

compare (comparar) – decide which is greater

better rate (la mejor tasa) – the greater percent

PRACTICE

show your work · label units

1. Write each record as a percent.

Step 1 Write the record as a fraction.

Step 2 Make the bottom 100, or divide top by bottom.

a. 21 out of 30 = ___ % **b.** 13 out of 20 = ___ % **c.** 9 out of 12 = ___ %

2. **Softball Hits.** Complete the table. Circle the player with the best record.

Step 1 Divide hits by at bats for each player.

Step 2 Write each as a percent. Circle the greatest.

Player	Hits	At bats	Percent
Ava	9	20	
Ben	12	25	
Cruz	22	50	

3. **Spelling Tests.** Rosa got 34 of 40 words **right**. Kai got 42 of 50 words right. Write each as a percent. Who did better?

Step 1 Rosa: make 40 into 100. Kai: make 50 into 100.

Step 2 Compare the two percents.

Percents and who did better_____

4. Select **all** the records that are greater than 70%.

Frame *I chose ___ because ___.*

Step 1 Write each record out of 100.

Step 2 Check each percent: is it **more than** 70%?

Step 3 70% itself is not more than 70%.

☐ **A** 15 out of 20 ☐ **B** 17 out of 25 ☐ **C** 36 out of 50 ☐ **D** 7 out of 10

5. Find the Error. Deja says 18 out of 24 = 24 out of 30. Is she right? Explain.

Frame *Deja is ___ because 18/24 = ___% and 24/30 = ___%.*

TEST PRACTICE

choose the best answer

6. Which record has the greatest percent?

Step 1 Write each record out of 100.

Step 2 Pick the **greatest** percent.

A 13 out of 20 **B** 16 out of 25 **C** 33 out of 50 **D** 6 out of 10

7. Team A won 12 of 16 games. Team B won 15 of 25 games. Which is true?

Step 1 Find Team A's percent: 12 ÷ 16.

Step 2 Find Team B's percent: 15 ÷ 25.

Step 3 Pick the true sentence.

A B did better. It won more games.

B A won 75%, B won 60%. A did better.

C Both teams did equally well.

D A won 12%, B won 15%.

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #____

AT HOME Compare two game records at home by changing both to percents.
