Ordered Pairs in All Four Quadrants

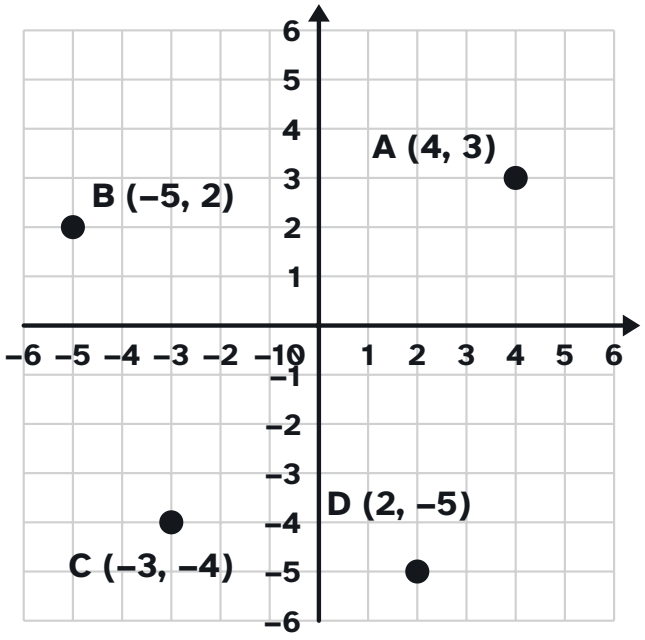
Name the quadrant of a point from the signs of its coordinates.

Name _____ **Date** _____

Tonight's spark

Base camp is the center of a map. Four clues are at A (4, 3), B (–5, 2), C (–3, –4) and D (2, –5). One clue is in the upper left. Which one?

Make a guess first: how many of the four clues are on the left side of the map?



Our class model: read the signs

Try it

Work it out on paper. Write one answer on each line.

1 **Which signs does (3, –8) have?**

A. (+, +) **B.** (–, +) **C.** (–, –) **D.** (+, –)

My answer _____

2 **A point has a positive x and a positive y. Which quadrant is it in?**

A. Quadrant I **B.** Quadrant II **C.** Quadrant III **D.** Quadrant IV

My answer _____

3 **Which quadrant is (–7, 2) in?**

A. Quadrant I **B.** Quadrant II **C.** Quadrant III **D.** Quadrant IV

My answer _____

4 **Which quadrant is (–5, –9) in?**

A. Quadrant I **B.** Quadrant II **C.** Quadrant III **D.** Quadrant IV

My answer _____

5 **Which ordered pair is in Quadrant III?**

A. (–3, 4) **B.** (3, –4) **C.** (–3, –4) **D.** (3, 4)

My answer _____

Talk about it

What are the two signs? Which quadrant do those signs name?

Home mission

Fold a sheet of paper in half, then in half the other way. The folds cross in the middle. Say only the signs, like (–, +). Can your student point to the right part of the paper? Try (+, –), then (–, –).

If we get stuck, ask

- Does the first number send you left or right?
- Does the second number send you up or down?
- Which corner of the grid is that?

Do it on a screen

Scan or type the link. Same lesson, with hints.
