

Decimal Bank Ledger

Unit 1: Number System Launch · Lesson 1-5 · EduWonderLab

UNIT 1 · LESSON 1-5 · TEACHER NOTES

Standard 6.NS.3

FORMAT Running-balance simulation	TIME 25–30 min
GROUPING Pairs	TOPIC Add and Subtract Decimals
STANDARD 6.NS.3	PREP LEVEL Light — print ledger sheet and transaction cards

Learning goal *I can add and subtract decimals by lining up the decimal points.*

Teacher setup

- Print one ledger and one transaction set per pair. Students start with a balance of \$50.00.
- Cards are taken in order (1–8). Each card changes the balance.
- One “bank error” card asks students to catch a mistake.

Materials

Transaction cards, Ledger recording sheet, Place-value guide, Pencil.

Differentiation & language support

- Place-value guide keeps decimals aligned (SPED).
- Money context supports ESOL learners — read amounts aloud as dollars and cents.
- Sentence stem: “I lined up the decimal points so I added ____ to ____.”

Key vocabulary (English / Español):

Term	Español	What it means
deposit	depósito	money added to an account
withdrawal	retiro	money taken out of an account
balance	saldo	how much money is left

Quick teacher check: *Check that the final balance is \$52.00 and the bank-error card is corrected.*

Decimal Bank Ledger

Unit 1: Number System Launch · Lesson 1-5 · EduWonderLab

Name: _____

Date: _____

Class: _____

Your goal: *I can add and subtract decimals by lining up the decimal points.*

What you need

Transaction cards, Ledger sheet, Place-value guide.

How to play

1. Begin with a balance of \$50.00 on your ledger.
2. Take cards in order. Add deposits, subtract withdrawals.
3. Line up the decimal points every time and write the new balance.
4. Finish with the bank-error card and fix the mistake.

Transaction Cards (start at \$50.00)

Start with \$50.00. Work the cards in order and keep a running balance.

1. Deposit \$12.50. New balance?	2. Withdraw \$8.75. New balance?
3. Deposit \$4.20. New balance?	4. Withdraw \$19.99. New balance?
5. Deposit \$25.05. New balance?	6. Withdraw \$0.50. New balance?
7. Withdraw \$14.26. New balance?	8. Deposit \$3.75. New balance?
9. Bank-error card: The bank says your final balance is \$51.00. Is it right? Fix it.	

Ledger (write each new balance in order):

Explain your thinking

Explain why lining up the decimal points matters when you add or subtract money.

Sentence frame: *I lined up the decimal points so the ___ matched the ___.*

★ **Challenge:** *Write two new transactions that would bring the balance back to exactly \$50.00.*

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 1 • LESSON 1-5 • Decimal Bank Ledger

Standard 6.NS.3

Answers

1. Deposit \$12.50. New balance? Answer: \$62.50	2. Withdraw \$8.75. New balance? Answer: \$53.75
3. Deposit \$4.20. New balance? Answer: \$57.95	4. Withdraw \$19.99. New balance? Answer: \$37.96
5. Deposit \$25.05. New balance? Answer: \$63.01	6. Withdraw \$0.50. New balance? Answer: \$62.51
7. Withdraw \$14.26. New balance? Answer: \$48.25	8. Deposit \$3.75. New balance? Answer: \$52.00
9. Bank-error card: The bank says your final balance is \$51.00. Is it right? Fix it. Answer: No — the correct final balance is \$52.00	

Teaching notes & look-fors

- Running balances: 62.50, 53.75, 57.95, 37.96, 63.01, 62.51, 48.25, 52.00.
- Common error: not aligning decimals (e.g., 37.96 vs 379.6).
