

Ratio Recipe Sort

Unit 3: Culinary Academy · Lesson 3-1 · EduWonderLab

UNIT 3 · LESSON 3-1 · TEACHER NOTES

Standard 6.RP.1

FORMAT Card sort + write three ways

TIME 25–30 min

GROUPING Pairs

TOPIC Understand Ratios

STANDARD 6.RP.1

PREP LEVEL Light — print recipe cards and sort mat

Learning goal *I can identify part-to-part and part-to-whole ratios and write a ratio three ways.*

Teacher setup

- Print one card set and sort mat per pair. The mat has two columns: part-to-part and part-to-whole.
- Students sort each card, then write the ratio three ways.
- Partners check that the ratio language matches the context.

Materials

Recipe cards, Sort mat, Ratio notation guide, Pencil.

Differentiation & language support

- Ingredient pictures help newcomers connect words to amounts (ESOL).
- Notation guide: $a : b$, a to b , a/b (SPED).
- Sentence stem: “This is part-to-___ because ___.”

Key vocabulary (English / Español):

Term	Español	What it means
ratio	razón	a comparison of two quantities
part-to-part	parte a parte	comparing one part to another part
part-to-whole	parte al todo	comparing one part to the total

Quick teacher check: *Ask one pair to explain why Card 2 is part-to-whole and Card 1 is part-to-part.*

Ratio Recipe Sort

Unit 3: Culinary Academy · Lesson 3-1 · EduWonderLab

Name: _____

Date: _____

Class: _____

Your goal: *I can identify part-to-part and part-to-whole ratios and write a ratio three ways.*

What you need

Recipe cards, Sort mat.

How to play

1. Pick a card and read the comparison.
2. Decide if it compares part-to-part or part-to-whole.
3. Place it on the matching side of the sort mat.
4. Write the ratio three ways: with a colon, with “to,” and as a fraction.

Recipe Cards

Sort each card as part-to-part or part-to-whole, then write the ratio three ways.

1. 3 cups flour to 2 cups sugar	2. 4 red apples out of 10 apples
3. 5 boys to 7 girls	4. 6 blueberry muffins out of 15 muffins
5. 2 cups water to 3 cups juice concentrate	6. 8 winners out of 20 players
7. 7 cats to 4 dogs	8. 9 sliced oranges out of 12 oranges

Record your work (sort + three ways):

Explain your thinking

Explain the difference between a part-to-part ratio and a part-to-whole ratio.

Sentence frame: *This ratio is part-to-___ because it compares ___ with ___.*

★ **Challenge:** Take a part-to-part card and rewrite it as a part-to-whole ratio. (For Card 1, 3 flour out of 5 total.)

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 3 • LESSON 3-1 • Ratio Recipe Sort

Standard 6.RP.1

Answers

1. 3 cups flour to 2 cups sugar Answer: Part-to-part • 3:2, 3 to 2, $\frac{3}{2}$	2. 4 red apples out of 10 apples Answer: Part-to-whole • 4:10, 4 to 10, $\frac{4}{10}$
3. 5 boys to 7 girls Answer: Part-to-part • 5:7, 5 to 7, $\frac{5}{7}$	4. 6 blueberry muffins out of 15 muffins Answer: Part-to-whole • 6:15, 6 to 15, $\frac{6}{15}$
5. 2 cups water to 3 cups juice concentrate Answer: Part-to-part • 2:3, 2 to 3, $\frac{2}{3}$	6. 8 winners out of 20 players Answer: Part-to-whole • 8:20, 8 to 20, $\frac{8}{20}$
7. 7 cats to 4 dogs Answer: Part-to-part • 7:4, 7 to 4, $\frac{7}{4}$	8. 9 sliced oranges out of 12 oranges Answer: Part-to-whole • 9:12, 9 to 12, $\frac{9}{12}$

Teaching notes & look-fors

- Part-to-whole cards: 2, 4, 6, 8. Part-to-part cards: 1, 3, 5, 7.
- All three forms describe the same ratio; the fraction form is not always in lowest terms here.
