

Number Line Gallery Walk

Unit 7: Equation Detective Agency · Lesson 7-5 · EduWonderLab

UNIT 7 · LESSON 7-5 · TEACHER NOTES

Standard 6.EE.8

FORMAT Graph + gallery check

TIME 25–30 min

GROUPING Pairs rotating

TOPIC Graph Inequalities

STANDARD 6.EE.8

PREP LEVEL Light — print inequality cards and number-line strips

Learning goal *I can graph an inequality on a number line with the correct circle and shading.*

Teacher setup

- Print one card set and number-line strips per pair.
- Students graph each inequality, then walk to check classmates' work.
- Feedback slips note open/closed circle and shading direction.

Materials

Inequality cards, Number line strips, Gallery feedback slips, Pencil.

Differentiation & language support

- Reminder: open circle for $<$ or $>$, closed circle for $\leq$ or $\geq$ (SPED).
- Sentence stem: "I used an ____ circle because ____."
- ESOL: arrows show which way to shade.

Key vocabulary (English / Español):

Term	Español	What it means
open circle	círculo abierto	shows the number is not included
closed circle	círculo cerrado	shows the number is included

Quick teacher check: *During the gallery walk, check circle type on Cards 2 and 5.*

Number Line Gallery Walk

Unit 7: Equation Detective Agency · Lesson 7-5 · EduWonderLab

Name: _____

Date: _____

Class: _____

Your goal: *I can graph an inequality on a number line with the correct circle and shading.*

What you need

Inequality cards, Number line strips.

How to play

1. Pick an inequality card.
2. Place an open or closed circle on the boundary number.
3. Shade toward all the numbers that make it true.
4. Walk the gallery and check a classmate's graph.

Inequality Cards

Use an open circle for $<$ or $>$, a closed circle for $\leq$ or $\geq$, then shade the correct direction.

1. $x > 3$	2. $x \leq 5$
3. $x < -2$	4. $x \geq 0$
5. $x > -1$	6. $x \leq 2$
7. $x \geq 4$	8. $x < 1$

Record your work (circle type + direction):

Explain your thinking

Explain when you use an open circle and when you use a closed circle.

Sentence frame: *I used an ___ circle because the symbol was ___.*

★ **Challenge:** Cards 1 and 5 both shade right. Explain why their circles are in different places.

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 7 • LESSON 7-5 • Number Line Gallery Walk

Standard 6.EE.8

Answers

1. $x > 3$ Answer: Open circle at 3, shade right	2. $x \leq 5$ Answer: Closed circle at 5, shade left
3. $x < -2$ Answer: Open circle at -2, shade left	4. $x \geq 0$ Answer: Closed circle at 0, shade right
5. $x > -1$ Answer: Open circle at -1, shade right	6. $x \leq 2$ Answer: Closed circle at 2, shade left
7. $x \geq 4$ Answer: Closed circle at 4, shade right	8. $x < 1$ Answer: Open circle at 1, shade left

Teaching notes & look-fors

- Open circle: $>$ or $<$. Closed circle: $\geq$ or $\leq$.
- Shade toward greater numbers for $>$ and $\geq$, toward lesser for $<$ and $\leq$.
