

Statistical Question Sort

Unit 8: Sports Analytics Lab · Lesson 8-1 · EduWonderLab

UNIT 8 · LESSON 8-1 · TEACHER NOTES

Standard 6.SP.1

FORMAT Sort + revise

TIME 20–25 min

GROUPING Pairs

TOPIC Statistical Questions and Data

STANDARD 6.SP.1

PREP LEVEL Light — print question cards and sort mat

Learning goal *I can tell whether a question is statistical and revise one that is not.*

Teacher setup

- Print one card set and sort mat per pair. The mat has two sides: statistical / not statistical.
- Students sort each question, then revise the non-statistical ones.
- A question is statistical if its answers vary.

Materials

Question cards, Sort mat, Revise-it box, Pencil.

Differentiation & language support

- Reminder: statistical questions have answers that vary (SPED).
- Sentence stem: “This is statistical because the answers will vary.”
- ESOL: ask “does everyone give the same answer?”

Key vocabulary (English / Español):

Term	Español	What it means
statistical question	pregunta estadística	a question with answers that vary
data	datos	information you collect

Quick teacher check: *Check one revised question per pair.*

Statistical Question Sort

Unit 8: Sports Analytics Lab · Lesson 8-1 · EduWonderLab

Name: _____ Date: _____ Class: _____

Your goal: *I can tell whether a question is statistical and revise one that is not.*

What you need

Question cards, Sort mat.

How to play

1. Read a question card.
2. Decide if the answers would vary (statistical) or be the same (not).
3. Place it on the sort mat.
4. Revise any non-statistical question to make it statistical.

Question Cards

Sort each question as statistical or not. If it is not, revise it so the answers will vary.

1. How tall are the students in our class?	2. How tall is our teacher?
3. How many pets does each student have?	4. What is my house number?
5. How many minutes do 6th graders sleep each night?	6. What time does the school bell ring?
7. How far can each student jump?	8. How many states are in the U.S.?

Record your work (sort + one revision):

Explain your thinking

Explain what makes a question statistical.

Sentence frame: *This is statistical because the answers will ____.*

★ **Challenge:** *Revise Card 2 (“How tall is our teacher?”) into a statistical question.*

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 8 • LESSON 8-1 • Statistical Question Sort

Standard 6.SP.1

Answers

1. How tall are the students in our class? Answer: Statistical — heights vary	2. How tall is our teacher? Answer: Not statistical — one answer
3. How many pets does each student have? Answer: Statistical — answers vary	4. What is my house number? Answer: Not statistical — one answer
5. How many minutes do 6th graders sleep each night? Answer: Statistical — answers vary	6. What time does the school bell ring? Answer: Not statistical — one fixed answer
7. How far can each student jump? Answer: Statistical — distances vary	8. How many states are in the U.S.? Answer: Not statistical — one answer (50)

Teaching notes & look-fors

- Statistical: 1, 3, 5, 7. Not statistical: 2, 4, 6, 8.
- Revision example: “How tall are the teachers in our school?” varies.
