

Center Measure Card Game

Unit 8: Sports Analytics Lab • Lesson 8-2 • EduWonderLab

UNIT 8 • LESSON 8-2 • TEACHER NOTES

Standard 6.SP.3

FORMAT Data-set card game

TIME 25–30 min

GROUPING Pairs

TOPIC Mean, Median, and Mode

STANDARD 6.SP.3

PREP LEVEL Light — print data-set cards

Learning goal *I can find the mean, median, and mode of a data set.*

Teacher setup

- Print one card set per pair. Each card is a small data set.
- Students find the mean, median, and mode for each.
- Discuss which measure best represents the data when an outlier appears.

Materials

Data-set cards, Center organizer, Pencil (no calculator).

Differentiation & language support

- Organizer columns: mean, median, mode (SPED).
- Sentence stem: “The mean is ___, the median is ___, the mode is ___.”
- ESOL: order the numbers least to greatest before finding the median.

Key vocabulary (English / Español):

Term	Español	What it means
mean	media	the average; add and divide
median	mediana	the middle value in order
mode	moda	the value that appears most

Quick teacher check: *Check the median step on Card 4 (even number of values).*

Center Measure Card Game

Unit 8: Sports Analytics Lab · Lesson 8-2 · EduWonderLab

Name: _____ Date: _____ Class: _____

Your goal: *I can find the mean, median, and mode of a data set.*

What you need

Data-set cards, Center organizer.

How to play

1. Pick a data-set card and order the numbers.
2. Find the mean by adding and dividing.
3. Find the median (middle) and the mode (most common).
4. Record all three on your organizer.

Data-Set Cards

For each data set, find the mean (add and divide), median (middle), and mode (most common).

1. 4, 6, 8	2. 2, 5, 5, 8
3. 10, 12, 14, 16, 18	4. 3, 3, 7, 9
5. 1, 2, 2, 3, 7	6. 6, 6, 8, 8, 10
7. 5, 10, 15	8. 4, 4, 4, 8

Record your work (mean, median, mode):

Explain your thinking

Explain how the mean and the median can be different for the same data set.

Sentence frame: *The mean is ____, but the median is ____, because ____.*

★ **Challenge:** Card 5 has an outlier (7). Find the mean and median without the 7. Which changes more?

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 8 • LESSON 8-2 • Center Measure Card Game

Standard 6.SP.3

Answers

1. 4, 6, 8 Answer: mean 6, median 6, no mode	2. 2, 5, 5, 8 Answer: mean 5, median 5, mode 5
3. 10, 12, 14, 16, 18 Answer: mean 14, median 14, no mode	4. 3, 3, 7, 9 Answer: mean 5.5, median 5, mode 3
5. 1, 2, 2, 3, 7 Answer: mean 3, median 2, mode 2	6. 6, 6, 8, 8, 10 Answer: mean 7.6, median 8, modes 6 and 8
7. 5, 10, 15 Answer: mean 10, median 10, no mode	8. 4, 4, 4, 8 Answer: mean 5, median 4, mode 4

Teaching notes & look-fors

- Card 6 has two modes; Cards 1, 3, 7 have no mode.
- Median of an even set is the average of the two middle values.
