Math is Mine

Look back at your math year and tell how you have grown as a doer of math.

Name _____ **Date** _____

Tonight's spark

A fair ticket says the Ferris wheel has 20 cars with about 4 riders each. In September you estimated the riders. Now the wheel turns 6 times an hour. How many riders does it move in one hour?

Make a guess first: is it more or less than 400 riders an hour?

Try it

Finish each sentence in your own words.

1. **In September I ___. Now I ___. That is part of my math biography.**

   My words _____

2. **When I reflect on ___, I notice ___.**

   My words _____

3. **In September I could ___. Now I can ___. That is growth.**

   My words _____

4. **I showed confidence when I tried ___ even though ___.**

   My words _____

5. **I see math in my community when ___.**

   My words _____

Talk about it

What is one thing you can do now that you could not do in September?

Home mission

Fold a sheet of paper in half. On the left side, write one thing you could do in math in September. On the right side, write one thing you can do now. Ask your student to read both sides out loud.

If we get stuck, ask

- What can you do now that was hard before?
- Which lesson do you remember most?
- How would you explain that to someone younger?

Do it on a screen

Scan or type the link. Same lesson, with hints.
