Represent and Describe Data in a Histogram

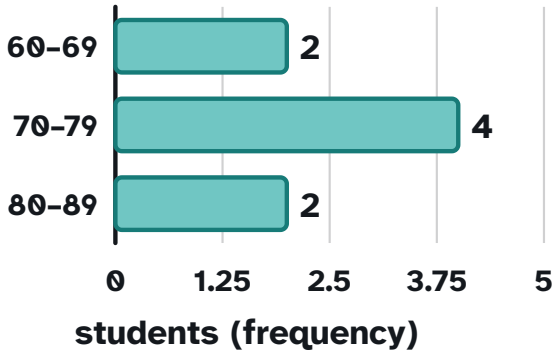
Describe the shape of a histogram: where the peak is and whether the sides match.

Name _____ **Date** _____

Tonight's spark

A poster shows quiz scores in a histogram. The bars over 60–69, 70–79 and 80–89 have heights 2, 4 and 2. Do the two sides of the tallest bar look alike?

Make a guess first: will the shape look balanced or lean to one side?



Our class model: reading the shape

Try it

Work it out on paper. Write one answer on each line.

1 **What is the tallest bar in a histogram called?**

A. The peak **B.** The interval **C.** The frequency table **D.** The total

My answer _____

2 **Bars over 0–9, 10–19, and 20–29 have heights 3, 5, and 2. Where is the peak?**

A. 0–9 **B.** 20–29 **C.** 10–19 **D.** At the height 5 on the side

My answer _____

3 **The bars on the left and right of the peak match. What is the shape of the data?**

A. Skewed to the left **B.** Symmetric **C.** Skewed to the right **D.** Flat

My answer _____

4 **A histogram has its peak on the left, and the bars get shorter with a long tail to the right. Which shape is it?**

A. Skewed to the left **B.** Symmetric **C.** No shape **D.** Skewed to the right

My answer _____

5 **Bars over 10–19, 20–29, and 30–39 have heights 3, 6, and 3. In which interval is a typical value?**

A. 20–29 **B.** 10–19 **C.** 30–39 **D.** All three are equally typical

My answer _____

6 **A histogram has bars of height 1, 4, 3, and 2. How many values does it show in all?**

A. 4 **B.** 24 **C.** 10 **D.** 2

My answer _____

Talk about it

Where is the peak, and which side, if any, has a long tail?

Home mission

Stack coins in three columns on the table: 2, 4 and 2. Ask your student if the two sides match. Now add a fourth column with 1 coin. Which way does the tail stretch now?

If we get stuck, ask

- Which bar is tallest, and what interval does it cover?
- Does the left side of the peak look like the right side?
- Which direction does the long tail point?

Do it on a screen

Scan or type the link. Same lesson, with hints.
