

Unit 8

Equations and Inequalities

[Teacher Guide](#) · [Contents](#) · [Lesson Map](#)

- Lesson 8-1** Equations and Solutions · Writing Equations
- Lesson 8-2** Addition Equations · Subtraction Equations
- Lesson 8-3** Multiplication Equations · Division Equations
- Lesson 8-4** Writing Inequalities · Representing Inequalities
- Lesson 8-5** Graphing Inequalities · Testing Solutions to Inequalities

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	One fill-in page per session. Students complete it during the lesson.
Practice	Form A (class) and Form B (reteach / retake) per session. Two pages, 12 problems, self-check code.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Homework Packet: one page per session. Level 1: same problems and answers, with a word bank, step frames and larger type.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Sort exit tickets into got it / almost / need help. Use Form B or Prerequisite Practice with the last two groups.

Lesson map

Lesson	Session	Standard	Learning target
8-1	1 · Equations and Solutions	6.EE.B.5	I can check whether a value is a solution of an equation by substituting it.
8-1	2 · Writing Equations	6.EE.B.6	I can write an equation for a situation and test a proposed answer.
8-2	1 · Addition Equations	6.EE.B.7	I can solve an addition equation by subtracting the same amount from both sides.
8-2	2 · Subtraction Equations	6.EE.B.7	I can solve a subtraction equation by adding the same amount to both sides.
8-3	1 · Multiplication Equations	6.EE.B.7	I can solve a multiplication equation by dividing both sides by the same number.
8-3	2 · Division Equations	6.EE.B.7	I can solve a division equation by multiplying both sides by the same number.
8-4	1 · Writing Inequalities	6.EE.B.8	I can write an inequality that describes a constraint in a real situation.
8-4	2 · Representing Inequalities	6.EE.B.8	I can represent an inequality with a set of solutions and describe them.
8-5	1 · Graphing Inequalities	6.EE.B.8	I can graph an inequality on a number line using an open or a closed dot.
8-5	2 · Testing Solutions to Inequalities	6.EE.B.8	I can test values against an inequality and graph the solution set.
