

Unit 9

Two-variable Relationships

[Teacher Guide](#) · [Contents](#) · [Lesson Map](#)

- Lesson 9-1** Independent and Dependent Variables · Tables of Values
- Lesson 9-2** From Table to Graph · Analyzing a Graph
- Lesson 9-3** Equations from Tables · Equations from Situations
- Lesson 9-4** Substitute and Solve · Working Backward to a Goal

What's in each lesson folder

N.M.pptx	Teaching slides for both sessions (warm-up, launch, worked examples, practice).
Warm-Up	One page of skills the lesson assumes. Answers: Unit Warm-Up Key.
Prerequisite Practice	A and B sheets per session for students who need a missing skill first, plus a key.
Guided Notes	One fill-in page per session. Students complete it during the lesson.
Practice	Form A (class) and Form B (reteach / retake) per session. Two pages, 12 problems, self-check code.
Exit Tickets	One page per session, two tickets per page. Three quick items and a self-rating.
Homework	Homework Packet: one page per session. Level 1: same problems and answers, with a word bank, step frames and larger type.
Answer Key	Every answer for notes, practice (both forms), exit tickets and homework; talk prompts, partner task, misconceptions; item analysis.

A lesson in two sessions

Session 1	Warm-Up → slides + Guided Notes (page 1) → Practice Form A → Exit Ticket → Homework Sheet 1
Session 2	Slides + Guided Notes (page 2) → Practice Form A → Exit Ticket → Homework Sheet 2
Next day	Sort exit tickets into got it / almost / need help. Use Form B or Prerequisite Practice with the last two groups.

Lesson map

Lesson	Session	Standard	Learning target
9-1	1 · Independent and Dependent Variables	6.EE.C.9	I can name the independent and dependent variables in a relationship.
9-1	2 · Tables of Values	6.EE.C.9	I can build a table of values for a relationship between two variables.
9-2	1 · From Table to Graph	6.EE.C.9	I can turn a table of values into points and plot them on a graph.
9-2	2 · Analyzing a Graph	6.EE.C.9	I can read a relationship off a graph and describe the rate it shows.
9-3	1 · Equations from Tables	6.EE.C.9	I can write an equation that matches a table of values.
9-3	2 · Equations from Situations	6.EE.C.9	I can write an equation from a described situation and identify its variables.
9-4	1 · Substitute and Solve	6.EE.C.9	I can substitute a value into an equation to find the matching output.
9-4	2 · Working Backward to a Goal	6.EE.C.9	I can work backward from a goal to find the input an equation needs.
