

LESSON 2-9 • SESSION 1 • PREREQUISITE PRACTICE A • SKILL 1 OF 2

Find the Distance Between Numbers

Builds on Grade 5 • 5.NBT.B.7

TODAY'S LESSON

In Problem 1 the mean is 19, so 13 and 25 are each 6 away. A distance is never negative.

YOU NEED TO

Find how far apart two numbers are by subtracting the smaller from the larger. **You will use it in Practice Form A, problems 1 and 3.**

STEPS TO FOLLOW*use these same steps on every problem*

- 1 Find** the larger of the two numbers.
- 2 Subtract** the smaller number from the larger.
- 3 Write** the distance. It is never negative.

WATCH ME*the steps in action***How far is 13 from 19?****Step 1** 19 is larger.**Step 2** $19 - 13 = 6$.**Step 3** The distance is 6, not -6 .**Answer 6****TRY IT WITH HELP***fill in each step*

- 1.** How far is 25 from 19?

Step 1 _____ is larger.**Step 2** $25 - 19 =$ _____**Step 3** The distance is _____.

- 2.** How far is 53 from 58?

Step 1 _____ is larger.**Step 2** $58 - 53 =$ _____**Step 3** The distance is _____.**YOUR TURN***use the steps on your own*

- 3.** Find each distance.

a. 15 and 19 _____**b.** 23 and 19 _____**c.** 12 and 20 _____**d.** 28 and 20 _____**e.** 57 and 58 _____**f.** 63 and 58 _____

Add a List of Distances

Builds on Grade 5 • 5.NBT.B.7

TODAY'S LESSON

In Problem 6 you add the distances $8 + 2 + 0 + 2 + 8 = 20$ before you divide by 5.

YOU NEED TO

Add a list of small numbers, including zeros. **You will use it in Practice Form A, problems 1 and 6.**

STEPS TO FOLLOW*use these same steps on every problem*

- 1 Look** for pairs that make easy sums.
- 2 Add** the pairs.
- 3 Add** the rest. Zeros add nothing.

WATCH ME*the steps in action*

Add $8 + 2 + 0 + 2 + 8$.

Step 1 $8 + 2$ and $2 + 8$ are pairs.

Step 2 Each pair is 10.

Step 3 $10 + 10 + 0 = 20$.

Answer 20

TRY IT WITH HELP*fill in each step*

4. Add $6 + 4 + 0 + 4 + 6$.

Step 1 $6 + 4$ and $4 + \underline{\hspace{2cm}}$ are pairs.

Step 2 Each pair is $\underline{\hspace{2cm}}$.

Step 3 $10 + 10 + 0 = \underline{\hspace{2cm}}$

5. Add $5 + 1 + 1 + 5$.

Step 1 $5 + 1$ and $1 + \underline{\hspace{2cm}}$ are pairs.

Step 2 Each pair is $\underline{\hspace{2cm}}$.

Step 3 $6 + 6 = \underline{\hspace{2cm}}$

YOUR TURN*use the steps on your own*

6. Add.

a. $5 + 0 + 1 + 4 = \underline{\hspace{2cm}}$

b. $7 + 3 + 3 + 7 = \underline{\hspace{2cm}}$

c. $15 + 3 + 3 + 15 = \underline{\hspace{2cm}}$

d. $18 + 4 + 4 + 18 = \underline{\hspace{2cm}}$

READY CHECK*a problem like the one in today's lesson*

7. The distances from the mean are 3, 1, 1 and 3. What is their total?

A 4

B 6

C 8

D 9

CHECK YOURSELF

☐ I can do this on my own ☐ I need a little help ☐ I have a question about #
