

LESSON 7-6 • SESSION 1 • PREREQUISITE PRACTICE B • SKILL 1 OF 2

Find Absolute Value

Builds on Lesson 7-3 Session 1 • 6.NS.C.7c

TODAY'S LESSONThe drone flies from $y = 13$ down to $y = -4$. $|13| = 13$ and $|-4| = 4$.**YOU NEED TO**Find the absolute value of a number, like $|-4| = 4$. **You will use it in Practice Form A, problems 3 and 7.****STEPS TO FOLLOW***use these same steps on every problem*

- 1** Find the number on the **number line**.
- 2** **Count** the units from it to 0.
- 3** That count is the **absolute value**. It is never negative.

WATCH ME*the steps in action***Find $|-3.5|$.****Step 1** -3.5 is left of 0.**Step 2** It is 3.5 units from 0.**Step 3** $|-3.5| = 3.5$.**Answer 3.5****TRY IT WITH HELP***fill in each step***1.** Find $|-17|$.**Step 1** -17 is _____ of 0.**Step 2** It is _____ units from 0.**Step 3** $|-17| =$ _____**2.** Find $|12|$.**Step 1** 12 is _____ of 0.**Step 2** It is _____ units from 0.**Step 3** $|12| =$ _____**YOUR TURN***use the steps on your own***3.** Find each absolute value.

a. $|-4| =$ _____

b. $|13| =$ _____

c. $|-8.5| =$ _____

d. $|0| =$ _____

e. $|-20| =$ _____

f. $|6| =$ _____

Find Distance on Number Lines

Builds on Lesson 7-3 Session 2 • 6.NS.C.7c

TODAY'S LESSONThe bus runs from $(-17, -4)$ to $(12, -4)$. That is the distance from -17 to 12 .**YOU NEED TO**Find the distance between two numbers, like -8 and 7 . **You will use it in Practice Form A, problems 2 and 7.****STEPS TO FOLLOW***use these same steps on every problem*

- 1** Find each number's **absolute value**.
- 2** **Same** side of 0: subtract. **Opposite** sides: add.
- 3** Write the **distance** in units.

WATCH ME*the steps in action***Find the distance from -8 to 7 .****Step 1** $|-8| = 8$ and $|7| = 7$.**Step 2** Opposite sides: add. $8 + 7 = 15$.**Step 3** 15 units.**Answer** 15 units**TRY IT WITH HELP***fill in each step***4.** Find the distance from -17 to 12 .**Step 1** $|-17| = \underline{\hspace{2cm}}$ and $|12| = \underline{\hspace{2cm}}$ **Step 2** Opposite sides: $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$ **Step 3** $\underline{\hspace{2cm}}$ units**5.** Find the distance from -20 to -7 .**Step 1** $|-20| = \underline{\hspace{2cm}}$ and $|-7| = \underline{\hspace{2cm}}$ **Step 2** Same side: $\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$ **Step 3** $\underline{\hspace{2cm}}$ units**YOUR TURN***use the steps on your own***6.** Find the distance between the numbers.**a.** -5 and 13 $\underline{\hspace{2cm}}$ **b.** 2 and 9 $\underline{\hspace{2cm}}$ **c.** -11 and 6 $\underline{\hspace{2cm}}$ **d.** -15 and -6 $\underline{\hspace{2cm}}$ **e.** -4 and 4 $\underline{\hspace{2cm}}$ **f.** 0 and -12 $\underline{\hspace{2cm}}$ **READY CHECK***a problem like the one in today's lesson***7.** A bus runs from $(-17, -4)$ to $(12, -4)$. How many blocks does it go?**A** 5**B** 29**C** -29 **D** 17**CHECK YOURSELF**
☐ I can do this on my own
 ☐ I need a little help
 ☐ I have a question about # $\underline{\hspace{1cm}}$
