

LESSON 8-5 • SESSION 1 • PREREQUISITE PRACTICE B • SKILL 1 OF 2

Compare Numbers on a Number Line

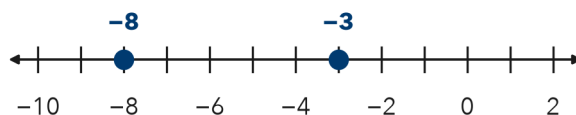

Builds on Lesson 7-4 Session 1 • 6.NS.C.7a

TODAY'S LESSONYou will graph $x \geq -3$ and decide which way the arrow points.**YOU NEED TO**Tell which of two numbers is greater, like $-1 > -3$. **You will use it in Practice Form A, problems 1 and 6.****STEPS TO FOLLOW***use these same steps on every problem*

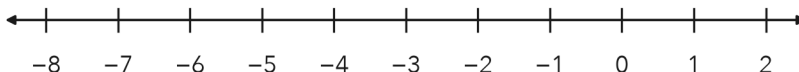

- 1 Find** both numbers on the number line.
- 2** The number farther **right** is greater.
- 3** Write $<$ or $>$. The symbol opens toward the greater number.

WATCH ME*the steps in action*

$-8 \underline{\hspace{1cm}} -3$

Step 1 Find -8 and -3 on the line.**Step 2** -3 is farther right, so -3 is greater.**Step 3** $-8 < -3$ **Answer** $-8 < -3$ **TRY IT WITH HELP***fill in each step*

1. $-1 \underline{\hspace{1cm}} -6$

**Step 1** Find -1 and _____ on the line.**Step 2** _____ is farther right, so it is greater.**Step 3** $-1 \underline{\hspace{1cm}} -6$

2. $0 \underline{\hspace{1cm}} -4$

Step 1 Find 0 and _____ on the line.**Step 2** _____ is farther right, so it is greater.**Step 3** $0 \underline{\hspace{1cm}} -4$ **YOUR TURN***use the steps on your own***3.** Write $<$ or $>$.

a. $-3 \underline{\hspace{1cm}} 1$

b. $-8 \underline{\hspace{1cm}} -7$

c. $-12 \underline{\hspace{1cm}} -15$

d. $6 \underline{\hspace{1cm}} -9$

e. $-4 \underline{\hspace{1cm}} 4$

f. $-2 \underline{\hspace{1cm}} -5$

Write Inequalities from Words

Builds on Lesson 8-4 Session 1 • 6.EE.B.8

TODAY'S LESSONYou will turn "at least 15 pounds" into $w \geq 15$ and graph it.**YOU NEED TO**Change a phrase like "at most 8" into $t \leq 8$. **You will use it in Practice Form A, problems 2, 3, 5, and 8.****STEPS TO FOLLOW***use these same steps on every problem*

- 1** Find the **phrase**: at least, at most, more than, or under.
- 2** Pick the **symbol**: at least $\geq$, at most $\leq$, more than $>$, under $<$.
- 3** Write the **letter**, then the symbol, then the number.

WATCH ME*the steps in action***A tent holds at most 6 campers. Use c .****Step 1** The phrase is "at most."**Step 2** "At most" means $\leq$.**Step 3** $c \leq 6$ **Answer** $c \leq 6$ **TRY IT WITH HELP***fill in each step***4.** A rider must be at least 52 inches tall. Use h .**Step 1** The phrase is _____.**Step 2** That phrase means _____.**Step 3** Write it: _____**5.** A slide allows riders under 200 pounds. Use w .**Step 1** The phrase is _____.**Step 2** That phrase means _____.**Step 3** Write it: _____**YOUR TURN***use the steps on your own***6.** Write each sentence as an inequality.**a.** x is at least 9: _____**b.** n is under 30: _____**c.** w is at most 50: _____**d.** t is more than 100: _____**e.** b is at least 18: _____**f.** k is under 12: _____**READY CHECK***a problem like the one in today's lesson***7.** A freezer stays at most 8 degrees. Which inequality matches? Use t .**A** $t \geq 8$ **B** $t \leq 8$ **C** $t < 8$ **D** $t > 8$ **CHECK YOURSELF**
☐ I can do this on my own
 ☐ I need a little help
 ☐ I have a question about #____
