UNIT 4 · STANDARD 6.AT.4

Find and Compare with Percentages

Lesson 4-4 · Teacher Copy

Name: Type your name **Date:** Today's date **Class:** Class period

My Notes Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can find the percent of a number using an equation or a model.

Language Objective: I can explain my steps using the words percent, base, part, and equation.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Percent | Base | Part | Equation | Discount

☝️ *Tap any word to see its meaning and a picture.*

1. A number out of 100 is a _____.

2. The whole amount you start with, right after the word "of," is the _____.

3. The amount you get out of the whole is the _____.

4. A number sentence with an equal sign, like part = percent × base, is an _____.

5. An amount subtracted from a price is a _____.

Write About the Math

Who is correct, and how do you know?
¿Quién tiene razón y cómo lo sabes?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **Percent** — *Porcentaje*
- ☐ **Base** — *Base*
- ☐ **Part** — *Parte*
- ☐ **Equation** — *Ecuación*
- ☐ **Discount** — *Descuento*

Model: *The base is 60 — it comes right after 'of' — and the part is the discount, 25% of 60.* — Students identify 60 as the base, the 25% discount as the part to find, and connect 'of' to the base.

Start

Complete the frames. Use the word bank.
Completa las oraciones. Usa el banco de palabras.

- **The ____ is correct because 12% of 1,500 = ____ × 1,500 = ____. The mistake was ____.**
- **My answer is ____ because ____.**
  Mi respuesta es ____ porque ____.

Build

Write two connected sentences. Use because, so, or but.
Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**
  Mi afirmación es ____.
- **My evidence is ____, so ____.**
  Mi evidencia es ____, entonces ____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.

Writing Guide — Teacher Copy

- The answer to the math question is correct.
- The evidence is real lesson mathematics (numbers, equation, or model), not restated claim.
- The support level changed the language scaffolding, never the mathematical expectation.

Answer Key & Teacher Guide

1. **Notes 1:** Percent
2. **Notes 2:** Base
3. **Notes 3:** Part
4. **Notes 4:** Equation
5. **Notes 5:** Discount
6. **Watch for this mistake:** *A common mistake in Find the Percent of a Number is multiplying by the percent number itself instead of its decimal form — for example, finding 30% of 80 by computing 30 × 80 = 2,400 instead of 0.30 × 80 = 24. Always divide the percent by 100 to get the decimal, then multiply that decimal by the base.*
7. **Try It 1:** A. 9 — *15% = 0.15. Multiply: 0.15 × 60 = 9 bonus points.*
8. **Try It 2:** A. $2 — *5% = 0.05. Multiply: 0.05 × 40 = $2 in tax.*
