UNIT 6 · STANDARD 6.AT.5

Explore Numerical Expressions with Exponents

Lesson 6-3

Name: Type your name **Date:** Today's date **Class:** Class period

SOUND STUDIO MISSION

The Doubling Mixboard

You are the lead sound engineer at Amplitude Studios. Every time you flip a switch on the new mixboard, the volume doubles — that is the power of exponents. The headline act goes on in one hour, and you must master powers before the speakers can be safely dialed in.

My Notes Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can write and evaluate numbers in exponent form using a base and a power.

Language Objective: I can explain my work using the words exponent, base, power, and evaluate.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Exponent | Base | Power | Evaluate | Repeated multiplication | Expanded form | Squared | Cubed

👆 *Tap any word to see its meaning and a picture.*

1. The small raised number that shows how many times the base is multiplied is the _____.

2. The number being multiplied repeatedly in a power, like the 3 in 3^4, is the _____.

3. A number written with a base and an exponent, like 3^4, is a _____.

4. To find the value of an expression, like $2^3 = 8$, is to _____ it.

5. $5 \times 5 \times 5 \times 5$ is an example of _____.

6 Writing 2^3 as 2 × 2 × 2 shows its _____ .

7 A number used as a factor two times is _____ .

8 A number used as a factor three times is _____ .

Write About the Math

How large is the file after 5 layers? Why does the file size grow so quickly?
¿De qué tamaño es el archivo después de 5 capas? ¿Por qué crece tan rápido el tamaño del archivo?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **Exponent** — *Exponente*
- ☐ **Base** — *Base*
- ☐ **Power** — *Potencia*
- ☐ **Evaluate** — *Evaluar*
- ☐ **Repeated multiplication** — *Multiplicación repetida*

Model: *The exponent counts how many times we multiply, not what we add.* — Students connect each switch flip to one more factor of 2 and explain that $2^3 = 2 \times 2 \times 2 = 8$, distinguishing repeated multiplication from repeated addition (which would give 6).

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **After 5 layers the file is ____ MB because $4 \times 2^5 = 4 \times$ ____ = ____. The file grows quickly because each layer ____ the size.**
- **My answer is ____ because ____.**
  Mi respuesta es ____ porque ____.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**
  Mi afirmación es ____.
- **My evidence is ____, so ____.**
  Mi evidencia es ____, entonces ____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.
