UNIT 7 · STANDARD 6.NOS.6

Represent Rational Numbers on the Coordinate Plane

Lesson 7-5

Name: Type your name **Date:** Today's date **Class:** Class period

LOST COVE MISSION

Captain Vega's Coordinates

You are the navigator on Captain Vega's expedition. Instead of 'X marks the spot,' she hid the treasure route as ordered pairs scrawled across the first quadrant of her chart, using only positive coordinates. Plot every point in the right order and the lost cove treasure is yours.

My Notes Level 3 Enrichment

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can plot and identify points on the coordinate plane using ordered pairs.

Language Objective: I can explain my work using the words coordinate plane, ordered pair, origin, and quadrant.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Coordinate plane | Ordered pair | Origin | Quadrant | Reflection | Integer

☝️ *Tap any word to see its meaning and a picture.*

Level 3: try the blanks from memory first, then check the bank.

1 The grid made by a horizontal and a vertical number line is the _____ .

2 Two numbers (x, y) that tell the location of a point are an _____ .

3 The point (0, 0) where the x-axis and y-axis cross is the _____ .

4 One of the four regions of the coordinate plane is a _____ .

5 A flip of a point or shape over an axis is a _____ .

6 A whole number or its opposite, with no fraction part, is an _____ .

Write About the Math

How do ordered pairs help the drone navigate? What shape does the flight path make?

¿Cómo ayudan los pares ordenados a que el dron navegue? ¿Qué forma hace la ruta de vuelo?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **Coordinate plane** — *Plano cartesiano*
- ☐ **Ordered pair** — *Par ordenado*
- ☐ **Origin** — *Origen*
- ☐ **Quadrant** — *Cuadrante*
- ☐ **Reflection** — *Reflexión*

Model: *We start at the origin and move along the x-axis first because ____.* — Student states the x-coordinate is the sideways (horizontal) move and the y-coordinate is the up/down (vertical) move, both starting from the origin.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **The drone uses ordered pairs because the first number controls ____ movement and the second controls ____. The path makes a ____ shape.**
- **My answer is ____ because ____.**
  Mi respuesta es ____ porque ____.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**
  Mi afirmación es ____.
- **My evidence is ____, so ____.**
  Mi evidencia es ____, entonces ____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.
