

Choose Appropriate Measures

Lesson 2-10

Name:

Date:

Class:

My Notes

Level 3 Enrichment

TODAY'S OBJECTIVES

Content Objective: I can choose the best measure of center for a data set based on its shape.

Language Objective: I can explain my choice using the words mean, median, outlier, and skewed.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Mean

Median

Outlier

Skewed

Data distribution

Variability

Tap any word to see its meaning and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

The average of a data set is the .

2

The middle value when data is in order, often best when there is an outlier, is the

.

3

A value far from the rest of the data, which can pull the mean, is an

.

4

Data that is bunched on one side with a tail on the other is

.

5

The way data values are spread out is the .

6

How much the data values differ is the

.

Write About the Math

Is \$85 a fair way to describe a 'typical' ticket price? What measure should the reporter use?

¿\$85 es una manera justa de describir un precio de boleto «típico»? ¿Qué medida debería usar el reportero?

Say your answer to a partner first. Then write it, using at least two of these words:

☐ **Mean**
Media

☐ **Median**
Mediana

☐ **Outlier**
Valor atípico

☐ **Skewed**
Sesgado

☐ **Data distribution**
Distribución de datos

Model: Data with an outlier or a skewed shape is better summarized by the median. — A strong answer says the presence of an outlier or skew signals the median, while symmetric data with no outliers fits the mean.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **The reporter used the _____, which is _____. A better measure would be the _____ (about _____) because _____. The courtside seat at \$260 is an _____ that pulls the mean _____.**
- **My answer is _____ because _____.**

Mi respuesta es _____ porque _____.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is _____.**
Mi afirmación es _____.
- **My evidence is _____, so _____.**
Mi evidencia es _____, entonces _____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

☐ I answered the question.

☐ I used math evidence: numbers, an equation, or a model.

☐ I used at least two math words.
