

Represent and Describe Data in a Histogram

Lesson 2-2

Name: Type your name

Date: Today's date

Class: Class period

My Notes

Level 3 Enrichment

TODAY'S OBJECTIVES

Content Objective: I can make and read a histogram to display data in intervals.

Language Objective: I can explain my histogram using the words histogram, frequency, interval, and distribution.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Histogram

Frequency

Interval

Distribution

Variability

Tap any word to see its meaning and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

A bar graph that shows how often data falls into equal intervals is a

2

How many data values fall in an interval is the .

3

An equal-sized range of values used to group data is an

4

The overall pattern of how data is spread out is the .

5

How much the data values differ is the .

Write About the Math

Does the histogram support the coach's claim? What does the shape of the data tell you?

¿El histograma apoya lo que dice el entrenador? ¿Qué te dice la forma de los datos?

Say your answer to a partner first. Then write it, using at least two of these words:

☐ **Histogram**
Histograma

☐ **Frequency**
Frecuencia

☐ **Interval**
Intervalo

☐ **Distribution**
Distribución

☐ **Variability**
Variabilidad

Model: A histogram groups data into equal intervals so large data sets become readable. — Students explain grouping into intervals makes 30 values readable and that each bar's height is the frequency for that interval.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- The histogram peaks at the ____ interval with ____ players. The shape is approximately _____. This _____ the coach's claim because _____.
- My answer is _____ because _____.

Mi respuesta es _____ porque _____.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- My claim is _____.
Mi afirmación es _____.
- My evidence is _____, so _____.
Mi evidencia es _____, entonces _____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

☐ I answered the question.

☐ I used math evidence: numbers, an equation, or a model.

☐ I used at least two math words.
