

# Least Common Multiple

Lesson 6-12

**Name:**

**Date:**

**Class:**

---

## TODAY'S OBJECTIVES

**Content Objective:** I can find the least common multiple (LCM) of two numbers by listing or comparing their multiples.

**Language Objective:** I can explain how I found the LCM using the words multiple, common multiple, skip counting, and least common multiple.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

**Fill in each blank as we go. Use the Word Bank to help you.**

## WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Least Common Multiple

Multiple

Common multiple

Skip counting

Prime factorization

Tap any word to see its meaning and a picture.

1

The smallest number that is a multiple of both is their

.

2

The product of a number and any whole number is a

of that number.

3

A multiple that two or more numbers share is a  
multiple.

4

Counting forward by a number other than 1, like 6, 12, 18, is called

.

5

Writing a number as  numbers multiplied together is its prime factorization.

## Write About the Math

**How does the LCM help you figure out the fewest hot dogs and buns to buy so they come out even?**

*¿Cómo te ayuda el mínimo común múltiplo a averiguar la menor cantidad de salchichas y panes que hay que comprar para que salgan parejos?*

Say your answer to a partner first. Then write it, using at least two of these words:

☐ **Least Common Multiple**  
*Mínimo común múltiplo*

☐ **Multiple**  
*Múltiplo*

☐ **Common multiple**  
*Múltiplo común*

☐ **Skip counting**  
*Conteo saltado*

☐ **Prime factorization**  
*Factorización prima*

**Model:** *The next shared check is a common multiple of 4 and 6, not their sum.* — Students reason that each astronaut repeats on multiples of their own number, so they only overlap at a common multiple, and adding  $4 + 6$  does not land on both schedules.

### Start

Complete the frames. Use the word bank.

*Completa las oraciones. Usa el banco de palabras.*

- **I need to buy** \_\_\_\_ **hot dogs and** \_\_\_\_ **buns because the LCM of 8 and 6 is** \_\_\_\_.
- **My answer is** \_\_\_\_ **because** \_\_\_\_.

*Mi respuesta es \_\_\_\_ porque \_\_\_\_.*

---

---

### Build

Write two connected sentences. Use because, so, or but.

*Escribe dos oraciones conectadas. Usa porque, entonces o pero.*

- **My claim is** \_\_\_\_.  
*Mi afirmación es \_\_\_\_.*
- **My evidence is** \_\_\_\_, **so** \_\_\_\_.  
*Mi evidencia es \_\_\_\_, entonces \_\_\_\_.*

---

---

---

## Explain

Write a claim, give math evidence, and explain your reasoning.

*Escribe una afirmación, da evidencia matemática y explica tu razonamiento.*

---

---

---

---

---

☐ I answered the question.

☐ I used math evidence: numbers, an equation, or a model.

☐ I used at least two math words.
